THE PENNY SAVINGS CHALLENGE

The penny savings challenge is a smart way to save money without even noticing you're putting the money away. Perfect for saving towards something special, like some new tech or travel.

You can start by putting 1p away on the first day, then increase the amount by a penny a day. You can do this by placing coins in a jar, manually transferring the money using online banking, or your bank might even be able to do this for you automatically.

You're never putting away more than £4 a day, but you'll be surprised how quickly it all adds up.
