

Welcome to Online Banking

Video Transcript

Online banking gives you access to so many great features. All of which makes managing your money so simple. For example, to log onto your account you just need to enter your ID and password, and when you've logged on, you can view or manage your money in many different ways like checking your current balance, viewing your incomings and outgoings, locating specific statements or choosing to go paperless; making payments from your day-to-day banking list, updating your personal information in "My Details", keeping your account secure by logging off whenever you finish a section. Whatever your online banking needs, manage your money conveniently and securely with HSBC.
